

MAJOLIKA KFT.

Tiling specialist

Established in 1993 Majolika Kft is a tiling specialist company that operates according to the ISO quality assurance requirements. The company is also a member of the Hungarian Tiling Association. The main activity of our company is to offer tiling services and to supply and deliver tiles and fixing materials that meet individual customer demands.

Our competence is guaranteed by a large team of our own professional employees and the excellent quality of materials that we use for installation. We are also able to offer competitive prices for our fittings materials due to our direct supplier contacts with domestic and foreign manufacturing companies.

In recent years Majolika Kft has performed sub-contractor duties in numerous large scale building development projects. Our references include tile fitting services for the Sűba, Óbuda-Új Udvar, Eurocenter, Mamut 2 and Asia Center shopping centres and installations in the Central Market Hall, Millennium Cultural Centre, Infopark, Bank-Center and Ferihegy 1 Airport Terminal. We have also carried out tile fittings in Spas and Baths in Harkány and Esztergom, and in the Aquapark in Tatabánya.

We exploit our 19 years of professional experience and long term supplier contacts in the trading business, too. Our trade centres in Budapest and in Berettyóújfalú offer 40.000 m² storage capacities, an extensive range of Italian, German, Spanish and Hungarian tile selections, Technokolla and Mapei fixing materials for our resident buyers and resellers.
